CYBER MEMO

THE NEWS

A great success for Wentworth Day on Sunday, September 8

Wentworth Day was the perfect opportunity to engage with members of the municipal council during the traditional barbecue. More than a dozen local artisans showcased their talents, and organizations such as the Dunany Artists Studio were also present.

As part of Municipal Week, municipal staff and the fire department were on-site to answer your questions. Our colleague Martine Renaud, a representative of the Environmental Consulting Committee, braved the rain to distribute over 55 trees of various species. The Civil Security Committee organized a raffle for a 72-hour emergency kit, with Mr. Delorme as the lucky winner.

The day also celebrated the first anniversary of the Generations Chair, inaugurated in August 2023.

Among the services offered, the return of Pyromont allowed many residents to have their fire extinguishers inspected and refilled, while Notreau collected samples for water testing. Additionally, a great new feature was introduced: a collaborative repair workshop from Gore, offering quick repairs for jewelry and small electronics.

Many informative booths were also present: Fibre Argenteuil, the MRC d'Argenteuil, Tricentris, 4 Korners, WRC, Les Trésors du Dôme, WILD, and the Sûreté du Québec.

A big thank you to everyone who joined us! This event was the perfect opportunity to connect and, above all, to express our pride in our municipality. **Fun fact:** We broke a record for the number of hot dogs consumed! Over 150 hot dogs and 100 ears of corn were enjoyed throughout the day!
