## Generations Chair

AUGUST 7, 2023

At the last municipal council meeting, the Township of Wentworth was presented with the Generations Chair. This movement created by the group Mothers step in is a symbolic reminder to help elected officials stay the course on issues related to the preservation of ecosystems, the reduction of greenhouse gas emissions and the prevention of pollution. Indeed, the goal is to remind elected officials that every decision made today will have an impact on the future of future generations.

The chair was designed by a dozen children from Wentworth during a craft activity at the Dunany Country Club on July 25.

### WORD FROM THE MAYOR

"This chair will remind us that every decision we make today will make a big difference. Whether it's decisions related to housing, conservation, residential projects, waste management or even lake protection, every one of them will have an impact for future generations", said Mayor Jason Morrison.

We would like to thank everyone involved in the project.

The Township of Wentworth is the first municipality in the MRC of Argenteuil to adopt the Generations Chair.

The group Mothers Step In carries the Generations Chair project and has so far mobilized children and students from all over Quebec to decorate chairs given to elected municipal officials. The mayor also invites other municipalities to join the movement "we need our neighbours, our region, our province and our country to carry the torch with us. Together, we can definitely make a difference! »
