

## LOCATION OF THE ECOCENTER

The Good Neighbours EcoCenter is located at  
40 chemin Sideline  
Gore (Québec)  
J0V 1K0

## LARGE-ITEM GARBAGE REFUSED

The EcoCenter is not a place to drop off your large-item garbage that cannot be reused, recycled or recovered. These need to go to landfill and their collection is in accordance with the **collection calendar established by your Municipality only.**

The large-item garbage items can be described as a waste product or a reusable material that have the additional constraint of great size or weight.

### Here is a list:

- Non-metallic washing machines and dryers;
- Couches, carpets and mattresses;
- Boat;
- Empty oil tanks;
- Branches tied in a bail and with a maximum length of 1 meter.

## ECOCENTER SCHEDULE

Days	Hours of operation
Saturday and Sunday	9:00 am to 4:30 pm
Wednesday (mid-May to mid-October)	9:00 am to 4:30 pm
Holidays (mid-May to mid-October)	9:00 am to 4:30 pm

# GOOD NEIGHBOURS EcoCENTER

## WHAT IS AN ECOCENTER?

The Ecocenter is a safe place designed for the recovery of specific materials, to reduce the disposal of waste by encouraging reuse, recycling and recovery. The Ecocenter is **not** a place to drop off large-item garbage residue that can only go to landfill.

## FOR WHOM IS THE ECOCENTER DESIGNED?

All citizens of the Municipality of the Township of Gore, of Mille-Isles and of Wentworth may benefit from The Good Neighbours Ecocenter services for free. They can thereby contribute to responsible waste management and environmental protection.

A proof of residence is required to use the Ecocenter, which can be:

- A driver's license with picture ;
- A copy of a recent lease, tax bill or hydro bill **along** with the driver's license with picture.

Services are available to individual residents only, not to small businesses or contractors. Thus, the amount of materials accepted per visit is about 1.8 m<sup>3</sup> equivalent to a small trailer 4' x 8' x 2' and the back of a pick-up truck.

The visits at the Ecocenter for the usage of the construction material or metal containers are limited to 6 per address per year.

## HOW DOES THE ECOCENTER WORK?

Each user is responsible for:

- Sorting the materials when loading it into his vehicle.
- Ensuring that the materials are indeed accepted at the Ecocenter.
- Transporting his or her materials to the Ecocenter.
- Following the advice of the attendant once on site.
- Sorting and dropping off his or her materials in the right places, as indicated by the attendant.

## RESOURCE CENTER AND REUSE

A dome type building will be used as a resource center at the Ecocenter. Users are invited to drop off materials or objects that are in **good condition** for reuse by others. Whether furniture, appliances, building material or objects of any kind in good condition, the resource center is the ultimate tool for the recovery and reuse of these domestic surpluses.

The visits to the resource center that aim to pick up objects are limited to 6 per address per year.

## MATERIALS ACCEPTED AT THE ECOCENTER

- **Construction, renovation and demolition materials:**
  - Wood and wood materials;
  - Aggregates (asphalt, concrete, brick and stone);
  - Shingles, gypsum and others.
