## Our mission:

With the aim of reducing the environmental footprint and providing the population with objects at a lower cost. To collect reusable objects by giving them a second life for the benefit of the community. Collaborate with other community or government organizations by donating items to poor or affected people. Reinvest the income generated in the community through various social, economic or environmental projects.

Objects accepted at the Dome must be in good condition. No clothing is accepted at the Dome. No equipment associated with a safety standard or having an expiration date is accepted at the dome. Items refused: helmets of all kinds, car seats and booster seats for children. Construction boots, climbing equipment, diving and swimming floats and water safety jackets.

**Why become a volunteer at the Dome :** Suzanne says « to see the smile on a person's face when they find the item they needed »

**Why donate items to the Dome :** Know that you are giving a second life to your objects.

Check the [Go Gore Facebook](#) page often  
to see the new items that arrive.
